

Specification

General	
Size	103x74x35mm (4.0x2.9x1.4") without antenna.
Weight	187 grams (6.6 ounces) without antenna.
Display	Custom LCD Display with automatic LED Backlight.
Mouldings	Main Unit: Toughened Acrylic and PC/ABS Bumper: Silicone Rubber.
GPS	10Hz GPS module using the GPS, Glonass and Galileo Satellite networks.
Speed/Split	Can be displayed as either Speed (meters per second) or Split (time for 500 meters). GPS speed can be smoothed over 2 - 8 strokes and can be Stream Compensated.
Stroke Rate	10-55 per minute, rate input from accelerometer.
Timing	0-99:59:59
Memory	Stores data every stroke (time/rate/check/speed/distance/distance per stroke/heart rate) .
Distance	Metres.
Check Factor	Derived from averaging the boat decelerations during each stroke and then rate compensated.
Data Transfer	Via DataFlow app for iOS and Android.
Odometer	Weekly, monthly, annual and lifetime totals.

Compliance & Durability	
Waterproof	IP67 and NEMA-6.
EMC	Fully tested and compliant.
Impact	Will survive repeated drops onto concrete from 1.5m/4ft.
Buoyancy	Does not float, so use the float provided if this concerns you. Please also note that even with the float fitted the unit will sink if attached to the silicone strap mounting bracket.

Battery	
Specification	5.5 Wh 1500 mAh Lithium Polymer Battery.
Life	Typically 12 hours but this reduces to 6 hours when the Coach Link is enabled. The battery is user replacable when it eventually needs replacing.
Charging time	3 hours with 500mA charger.

Warranty	
Warranty	2 Years.
